

SUMMARY

Senior Software Engineer with 9+ years of experience building scalable web applications and enterprise platforms. Currently contributing to the CloudVision platform at Arista Networks, specializing in ReactJS, TypeScript, Node.js, Go, and distributed systems. Proven track record of designing high-performance, user-centric solutions, improving feature delivery, and driving cross-functional collaboration. Experienced in modern frontend architecture, microservices, Kubernetes, gRPC, and large-scale network management platforms.

SKILLS

Javascript | Reactjs | Next.js | Node.js | Express | Docker | Git/Gerrit | GRPC | Elasticsearch | Less

EDUCATION

06/2012 – 05/2017 | Gwalior, India  
**Integrated Post Graduation: CS** | IIIT Gwalior  
GPA: 7.56

04/2010 – 05/2011 | Talbehat  
**12th Class** | KV Talbehat  
GPA: 94%

EXPERIENCE

06/2024  
**Software Developer** | Arista Networks

Developed real-time monitoring dashboards using React, Redux, gRPC streams, and RxJS for efficient processing of network telemetry and device events. Architected scalable state management and reusable UI components that improved maintainability and accelerated feature delivery across multiple network management modules. Built frontend solutions for CloudVision, a network observability and management platform, enhancing onboarding and monitoring processes for thousands of Arista and third-party switches. Collaborated with backend engineers to define APIs and streamline data flows for large-scale, multi-vendor network lifecycle management. Automated build and deployment workflows through Jenkins-based CI/CD pipelines and Gerrit-driven code review processes. Tech: Reactjs, Redux, Rush, gRPC, Jenkins, Rxjs, Gerrit

04/2024 – 06/2024  
**Principal Member of Technical Staff** | Oracle Pvt Ltd

Set up Flink Pipeline to streamline patient registration process. Enhanced software functionality using Reactjs, Kafka, Flink, and Springboot. Completed day-to-day duties accurately and efficiently. Contributed innovative ideas and solutions to enhance team performance and outcomes. Worked successfully with diverse group of coworkers to accomplish goals and address issues related to our products and services.

06/2020 – 12/2023 | Bangalore, India  
**Software Developer 2** | Groupon Private Ltd

Revamped the merchant web interface, positively impacting over 1M users. Designed and implemented features such as Pricing Trust, Updating Prices, Quantity, Fine Print, and Creative Content to enhance user experience. Streamlined merchant onboarding process by using AI to automate scraping and retrieval of website details, reducing manual effort. Tech: Next.js, React.js, Javascript, Java, Spring Boot, Redux, Less

09/2018 – 05/2020 | India

**Senior Software Developer** | Traveloka India Pvt Limited

Engineered Photoshop-like tool enabling internal users to generate dynamic promotional images, enhancing marketing capabilities using Reactjs and Canvas Library. Developed backend process to efficiently recreate images with dynamic variables, streamlining final promotional content generation. Tech: Reactjs, Java, Javascript, Redux, CSS3, Spring Boot, Node.js, MongoDB

06/2017 – 09/2018

**Associate Software Developer** | Strand Life Sciences

Migrated India Biodiversity Portal from Groovy on Grails to modern architecture with JAX-RS and ReactJS, enhancing system performance and optimising user experience. Leveraged Elasticsearch for data retrieval, enhancing response times and search capabilities. Tech: Jaxrs, Reactjs, Javascript, Redux, CSS3, Java, ELasticSearch
